

OUSSAMA MOSBAH

Frontend Engineer

+216 20009536 | mosbahoussama19@gmail.com | Sousse, Tunisia | linkedin.com/in/mosbah-oussama | oussamamosbah.com

PROFESSIONAL SUMMARY

Frontend Engineer with 3+ years of experience delivering scalable, production-grade web applications across SaaS, fintech, e-commerce, and e-learning sectors. Specialized in React.js/Next.js with a strong foundation in component-driven architecture, secure payment integrations, and responsive UI/UX design. Proven ability to ship clean, maintainable code in Agile environments while collaborating effectively across cross-functional teams.

CORE COMPETENCIES

Languages & Markup: JavaScript (ES6+), TypeScript, HTML5, CSS3, Dart

Frameworks & Libraries: React.js, Next.js, Material UI, Redux Toolkit

APIs & Integrations: REST API, Stripe API, Firebase, MyFatoorah API

Testing: Jest, React Testing Library, Unit & Integration Testing

Tools & Platforms: Git, GitLab, GitHub, Postman, Swagger, VS Code, ClickUp, Figma

Methodologies: Agile/Scrum, Code Review, Clean Architecture, DRY, KISS, SOLID

AI & Dev Tools: Claude, Cursor, Codex, Prompt Engineering, AI-Assisted Development

PROFESSIONAL EXPERIENCE

Front-End Engineer | **Astrolab Agency** | Sousse, Tunisia

01/2023 - Present

Selected projects at Astrolab

Mission 1 – Sweetees | Gift Cards & Concert Ticketing Platform

- Built the React Manager/Admin interfaces for Sweetees Gift & Ticket: responsive dashboards, reusable components and views tailored to three backend-defined roles.
- Integrated frontend JWT APIs for sign-in, session handling and navigation based on backend roles and permissions (RBAC).
- Integrated Stripe checkout on the frontend, including payment screens, confirmations, statuses and backend API errors.
- Maintained technical documentation and joined Agile ceremonies and code reviews through ClickUp and GitLab CI/CD.

Tech Stack: React.js, TypeScript, Material UI, Stripe API, GitLab, ClickUp, HTML5, CSS3

Mission 2 – AGCFF | Gulf Region Football Tournament Management Platform

- Built responsive interfaces for organizers, clubs and federations, covering multi-tournament management, scheduling and live results.
- Integrated frontend actions to generate and download match reports and official competition PDFs.
- Designed unit and integration tests achieving 75%+ coverage across critical modules.
- Applied DRY/KISS principles and code reviews; used Claude, Cursor and Codex for assisted prototyping, followed by code and user-flow validation.

Tech Stack: React.js, TypeScript, Material UI, GitHub, ClickUp, HTML5, CSS3

Mission 3 – Champion Mind | Online E-Learning Platform

- Developed the interfaces of a dual-portal e-learning platform for instructor course and quiz creation, plus student content and assessments.
- Built interfaces for 20+ modules and quiz journeys, with dashboards showing grades and backend-supplied results.
- Delivered mobile-first layouts, reusable components and REST API integrations with the backend team.

Tech Stack: React.js, TypeScript, Material UI, REST API, HTML5, CSS3

Selected projects at Astrolab (continued)

Mission 4 - Eldo Wallet | Customer Loyalty & Mobile Marketing Platform

- Developed all screens across the Admin, Manager and Partner portals using React and TypeScript to manage loyalty cards, tickets and coupons for 2 mobile wallets: Apple Wallet and Google Wallet. The platform reports over one million activated cards.
- Integrated REST APIs on the frontend to update cards and manage targeted notifications, with status displays and error handling.
- Built reusable data-visualization components to present campaign metrics and help merchants monitor campaigns from the dashboard.

Tech Stack: React.js, TypeScript, Material UI, Stripe API, REST API, GitLab, HTML5, CSS3

Mission 5 - Astrolab | Agency landing page

- Next.js agency landing page for services, work and contact, with Motion animations and AI-assisted prototyping.

Tech Stack: Next.js, Motion, Shadcn/ui, Responsive Design

Mission 6 - Talinty | Recruitment platform landing page

- Developed a Next.js landing page presenting an AI-assisted recruitment solution, its features and demo requests.

Tech Stack: Next.js, Motion, Shadcn/ui, Responsive Design

Mission 7 - Ciceria | Legal-formality management

- React legal-formality back office for managing users, operations, documents and reference data.

Tech Stack: React, Tailwind CSS, Responsive Design

Front-End Developer (Co-op) | NEXYM | Monastir, Tunisia

02/2022 - 12/2022

- Built Sarabapp with Next.js SSR to improve load times, SEO and catalog navigation.
- Integrated MyFatoorah on the frontend: checkout, confirmation, statuses and errors from backend APIs.
- Designed 10+ animated UI components and CSS micro-interactions to streamline the shopping journey.

Tech Stack: Next.js, TypeScript, Material UI, MyFatoorah API, GitLab, ClickUp, HTML5, CSS3

Front-End Developer Intern | ZenHosting | Sousse, Tunisia

07/2021 - 10/2021

- Built EeKad's homepage, articles, categories and profiles with Firebase authentication, REST content and contributor/admin access.
- Optimized lazy loading, code splitting and asset compression to achieve Lighthouse scores above 90; wrote technical and user documentation.

Tech Stack: React.js, Firebase, REST API, Material UI, GitLab, Jira, JavaScript, HTML5, CSS3

Embedded Systems Intern (PFE) | Dräxlmaier Group | Sousse, Tunisia

01/2020 - 07/2020

- Deployed a YOLO model on Raspberry Pi for real-time crimping anomaly detection, achieving 90%+ accuracy in field tests.
- Built a Java Swing supervision and alert interface, with maintenance and handover documentation.

Tech Stack: Python, YOLO, Machine Learning, Raspberry Pi, Java Swing

EDUCATION

Engineering Degree in Software Engineering

EPI Digital School | 09/2020 - 07/2023

Applied Bachelor's Degree – Embedded & Mobile Systems

Institut Supérieur des Études Technologiques de Sousse | 2020
